PROFESSIONAL EXPERIENCE

HeroApps Software Development Services — Daet, Camarines Norte, Philippines

Software Developer — **May 2026 – Present**

- Navigated and contributed across multiple active production codebases, building modular UI components, integrating RESTful APIs, and implementing new features in Agile sprints.
- Diagnosed and resolved front-end and back-end defects, optimizing local database caching and network fallbacks to maintain system reliability for 1.2K+ monthly active users.
- Managed multi-branch Git version control workflows, participated in daily standups and code reviews, and enforced static analysis rules via ESLint, Android Lint, and Detekt.
- Authored technical documentation, onboarding guides, and internal code comments to streamline knowledge sharing and prevent development silos.

Software Developer Intern — **Feb 2026 – May 2026**

- Engineered client-side media playback architecture with automated restart states and error-recovery handlers; conferred **Best OJT Award (2026)**.
- Connected user-facing client applications to external REST APIs, transforming and validating complex JSON payloads into local relational database structures.

WEB & BACK-END PROJECTS

Museo Bulawan MIS **(Capstone Project) — Institutional Web Booking & MIS** — Node.js, Express, React, MySQL, Socket.IO, Tailwind CSS

- Architected full-stack web application connecting modular client components with a Node.js/Express REST API back-end and normalized MySQL relational database.
- Engineered bidirectional real-time appointment updates with WebSockets/Socket.IO and transaction-level MySQL row locking to prevent scheduling collisions; awarded **Best Capstone Project Award (2026)**.
- Implemented administrative reporting endpoints, automated status management cron tasks, and comprehensive system user documentation.

Wiz TFT Client Hub **— Modern Web Strategy & Intelligence Platform** — Next.js 14, React 18, Tailwind CSS, JavaScript (ES6+)

- Engineered modular component-based web dashboard using Next.js 14 and JavaScript, featuring real-time state calculations, meta radars, and responsive UI layouts.

The Retro Rack **— Full-Stack E-Commerce Platform** — PHP, MySQL, JavaScript, HTML5/CSS3

- Developed full-stack web platform with dynamic catalog filtering, cart state management, checkout routines, and relational MySQL database operations.

Developer Portfolio Website **— Live Web Application** — React, Next.js, Tailwind CSS, Vercel

- Deployed responsive web application utilizing continuous deployment workflows on Vercel and version-controlled GitHub repositories.
